The Hummer: Myths and Consumer Culture is a study of the notorious automobile/sports utility vehicle. Featuring more than fifteen essays, this collection analyzes the Hummer through a wide array of disciplines, including material culture, marketing and advertising, popular culture, military technology, urban planning, and political economy. It provides a complete overview of the vehicle: production, marketing aspects, and cultural significance. The only book of its kind, The Hummer is of great value to cultural studies and American studies scholars and students, as well as to any

general reader with an interest in contemporary American culture.

Marketing and consumer research has traditionally conceptualized consumers as individuals- who exercise choice in the marketplace as individuals not as a class or a group. However an important new perspective is now emerging that rejects the individualistic view and focuses on the reality that human life is essentially social, and that who we are is an inherently social phenomenon. It is the tribus, the many little groups we belong to, that are fundamental to our experience of life. Tribal Marketing shows that it is not individual consumption of products that defines our lives

but rather that this activity actually facilitates meaningful social relationships. The social 'links' (social relationships) are more important than the things (brands etc.) The aim of this book is therefore to offer a systematic overview of the area that has been defined as "cultures of consumption"- consumption microcultures, brand cultures, brand tribes, and brand communities. It is though these that students of marketing and marketing practitioners can begin to genuinely understand the real drivers of consumer behaviour. It will be essential to everyone who needs to understand the new paradigm in consumer research, brand management and communications management.

An award-winning historian argues that America's obsession with security imperils our democracy in this "compelling" portrait of cultural anxiety (Mary L. Dudziak, author of *War Time*). For the last sixty years, fear has seeped into every area of American life: Americans own more guns than citizens of any other country, sequester themselves in gated communities, and retreat from public spaces. And yet, crime rates have plummeted, making life in America safer than ever. Why, then, are Americans so afraid-and where does this fear lead to? In this remarkable work of social history, Elaine Tyler May demonstrates how our obsession

with security has made citizens fear each other and distrust the government, making America less safe and less democratic. Fortress America charts the rise of a muscular national culture, undercutting the common good. Instead of a thriving democracy of engaged citizens, we have become a paranoid, bunkered, militarized, and divided vigilante nation.

Essentials of Marketing is a brief version of Basic Marketing, the worldwide market leading Principles text. Basic Marketing and Essentials of Marketing are the first books to develop and present the 4Ps framework (Product, Price, Place, Promotion) which describes the components

of the marketing mix and forms the foundation of Marketing. Like Basic Marketing, Essentials of Marketing offers a very thorough integration of the latest marketing themes, topics, and examples woven throughout. While Essentials of Marketing is a brief text, it is not a cut-and-paste of Basic Marketing. It is written carefully, thoroughly and specifically to be suitable for shorter Marketing courses. Author Bill Perreault shows this same dedication to the supplements package. Where most principles of marketing texts have separate supplement authors, Bill Perreault creates every item in the package. This unique involvement ensures quality, accuracy, and reliability.

The all-new Hummer H3 will reach market in early 2005, just as this book chronicling its development is published. The H3 will offer traditional Hummer off-road durability and stump-pulling power in a smaller, more-affordable SUV-styled package. Interest in the new model is very high and the automotive website "edmunds.com" reported, ". . . the smaller and cheaper H3 is likely to become the most popular Hummer ever."

War alter the lives of women, both white and black, left alone on southern farms? How did the Great Depression change the lives of working class families in eastern cities? How did the discovery of gold in California transform the lives of native American, Hispanic, and white communities in western territories? Organized by time period as spelled out in the National Standards for U.S. History, these four volumes effectively analyze the diverse whole of American experience, examining the domestic, economic, intellectual, material, political, recreational, and religious life of the American people between 1763 and 2005.
