Enzo Anselmo Giuseppe Maria Ferrari, Cavaliere di Gran Croce OMRI (Italian: [ɛntso an sɛlmo fer ra ri]; 20 February 1898 – 14 August 1988) was an Italian motor racing driver and entrepreneur, the founder of the Scuderia Ferrari Grand Prix motor racing team, and subsequently of the Ferrari automobile marque. ~~Enzo Ferrari - Wikipedia~~

Over the years we 've had at least 15 Dinos for track or road, all named after Enzo Ferrari 's automobile-engineer son Alfredo, who died at the tragically early age of 24 in 1956. We 've also seen the 360 Modena (the city of Enzo 's birth), the Maranello (the location of Ferrari 's factory) and the Fiorano (the company test track).

Over the years much has been written about the cars produced by Ferrari, but little about the people associated with them. This extraordinary book puts that right with biographies of more than 225 ' men from Maranello ' – and one woman in the form of Brenda Werner, who was Enzo Ferrari 's long-serving personal assistant. Lots of drivers are included, from early stars like Juan Manuel Fangio to recent champions Michael Schumacher and Kimi Raikkonen, and American greats such as Phil Hill and Mario Andretti and British champions such as Nigel Mansell. There are team managers and engineers – the list goes on and on. Needless to say, all Ferrari enthusiasts will be captivated.

"An illustrated history of the people, the companies, and the engineering behind the development of the Ferrari hypercars, beginning with Enzo Ferrari's earliest designs and ending with 2013's LaFerrari"--Provided by publisher.

The prestigious publication in two volumes, Ferrari 1000 GP: The Official Book, in a limited edition, is an extraordinary tribute to Scuderia Ferrari and the remarkable objective of 1,000 Grands Prix achieved by the team from Maranello in 2020. Over the course of more than 700 pages enriched with more than 1,000 illustrations, many of which are previously unpublished, the work traces the incredible story of Ferrari's participation in Formula 1 that began in 1950 with the Monaco Grand Prix, continued with no less than 230 victories, 15 drivers' titles and 16 constructors' titles and has reached the unique total of 1,000 Grands Prix. Made in collaboration with Ferrari Spa and available in a limited edition of 2,000 copies, the book is contained in an exclusive slipcase in "Rosso Storico 127", the same colour as the 125 S, the first Ferrari from 1947, and the SF1000, which in 2020 competed in the Scuderia's 1,000th Grand Prix on the Mugello circuit. An indispensable volume for the bookshelves of all enthusiasts of the Prancing Horse: a precious collector's item as well as an invaluable source of information regarding the results obtained by the cars from Maranello in every race and the team's placings in the Drivers' and Constructors' championships. The book features a foreword by Louis Camilleri and Mattia Binotto.

world's most iconic carmaker. All these traits coalesce in the form of Ferrari's road cars. From the 125S in 1947, to the versatile 340 in the 1950s, to the stunning 250s and 275s of the 1960s, to the Daytona, to the shocking F40, to the modern era's outrageous hypercars the Enzo and LaFerrari, no other sports car manufacturer has so consistently set the bar for style and performance. It's a near unbroken 70-year run of hits. Ferrari 70 Years lifts the hood on Ferrari's sports car history beginning in 1947, but also touches on Enzo Ferrari's early career with Alfa-Romeo before he launched his iconic company. Author Dennis Adler offers Ferrari owners and fans an engaging and comprehensive history of Maranello's extensive sports car range. Adler's detailed text is accompanied by his gorgeous photography and supplemented by fascinating images from Ferrari's historic archive. There is simply no better way to celebrate Ferrari's fantastic history.

Ferrari means red. It means racing. Excellence, luxury, and performance. Less well-known is the man behind the brand. For nearly seventy years, Enzo Ferrari dominated a motor-sports empire that defined the world of high-performance cars. Next to the Pope, Ferrari was the most revered man in Italy. But was he the benign padrone portrayed by an adoring world press at the time, or was he a ruthless despot, who drove his staff to the edge of madness, and his racing drivers even further? Brock Yates's definitive biography penetrated Ferrari's elaborately constructed veneer and uncovered the truth behind Ferrari's bizarre relationships, his work with Mussolini's fascists, and his fanatical obsession with speed. "A fascinating and provocative book" The Observer.

The only full history behind all of Ferrari's most outrageous performance cars. For over 60 years, Ferrari has produced cars that fire the imaginations of car lovers worldwide. Embodying the perfect combination of beauty, performance, exclusivity, and Italian flair, its vehicles have made it the world's most iconic carmaker. Though Ferrari has always produced road cars, the company has first and foremost focused on competition models, such as the handful of cars built in low-number serial production that campaigned on race courses the world over in the 1950s and 60s. In Ferrari Hypercars: The Story of Maranello's Fastest, Rarest Road Cars, author Winston Goodfellow profiles some of Ferrari's top creations--vehicles so startling in their performance capabilities that they surpass modern terms and attain the status of "hypercar." This book begins by reaching back to the 1950s to establish the lineage of hypercars and goes on to showcase the best known examples since the 288 GTO, including the F40, F50, Enzo, and all-new LaFerrari. These cars were collector vehicles from the moment they rolled off the production line, though that was never the reason for their creation; they were made to be driven. A necessary read for any racing fan, Ferrari Hypercars exhaustively traces the history of the company's competition vehicles and establishes its status as a symbol for speed, luxury, and wealth.

Ferrari—perhaps the most storied car manufacturer in existence—celebrates its 75th anniversary in 2022. Ferrari: 75 Years chronicles the company's legendary story with a special emphasis on the production and sporting cars from 1947 to today.

Traces the story of how Henry Ford II endeavored to compete against Enzo Ferrari for dominance in the speed- and style-driven 1960s automobile industry, revealing the pivotal contributions of visionary Lee Iacocca and former racing champion-turned-engineer Carroll Shelby.
