The Florida Department of
Transportation (FDOT) is actively
promoting the installation of modern
roundabouts throughout the state
highway system due to their proven
safety and operational benefits.

Currently, there are approximately 20
roundabouts operating on the state
highway system and over 300
roundabouts on local roads throughout
the State.

Roundabouts: An Informational Guide

A roundabout is a type of circular intersection that, in the proper context, provides for safer, more efficient, and less expensive intersection operations. Roundabouts are a proven traffic calming countermeasure that help reduce the frequency of severe and fatal accidents when compared to conventional stop -controlled or signalized intersections.
