Fuel Consumption Guide | Vehicle Certification Agency

UK v US Gallon. As the UK (Imperial) gallon is around 20% larger than the US gallon, MPG figures are 20% higher in the UK than in the US for the same real fuel economy. As this is a UK based website, all comparisons and calculations are carried out using official UK government fuel consumption figures, which use MPG based on a UK gallon.

Find a car's MPG - Fuel Watchdog

By Goodyear's estimate, at an average petrol price of £ 1.10 per litre, fuel savings add up to more than £ 220 over the life of the tyres.* Although they do qualify this claim by saying that actual fuel and cost savings may vary depending, among other things, on tyre pressure, vehicle weight and driving style. Wet grip is a key safety measurement.

Tyre labelling - what do your tyre labels mean? | RAC Drive
