This is a World War II Harley-Davidson flathead engine, produced for the US Army as part of the war effort. With a capacity of 45ci (740cc), the engine was standard fitment in the WLA model (along with the Canadian WLC). It featured very low 5:1 compression, allowing the engine to run on low-grade fuel.

Unopened 1942 Harley Davidson 45 WLA Crate Engine

Produced from 1929 to 1973, the Harley 45 flathead motor powered two-wheeled motorcycles until 1952 and three-wheeled Servi-Cars until 1973. These rugged, reliable V-twin engines were easy to maintain and would continue to run even in the worst of tune. They were simple and efficient, but not particularly powerful in stock trim.

The Harley-Davidson KR or KR750 was a 45.125 cu in (739.47 cc) displacement V-twin engine racing motorcycle made by Harley-Davidson from 1953 through 1969 for flat track racing. It was also used in road racing in the KRTT faired version. When the KR was first introduced, it dominated motorcycle racing in the United States.

~~Harley-Davidson KR — Wikipedia~~

Between 1936 and 2003, engine designs released by Harley represented a constant tweaking of the same basic V-twin, 45-degree, air-cooled engine design. In 2001, Harley released its first truly new design in a commercial motorcycle, yet it was still a V-twin.
