Handbook of Sleep Research, Volume 30, provides a comprehensive review of the current status of the neuroscience of sleep research. It begins with an overview of the neural, hormonal and genetic mechanisms of sleep and wake regulation before outlining the various proposed functions of sleep and the role it plays in plasticity, and in learning and memory. Finally, the book discusses disorders of sleep and

waking, covering both lifestyle factors that cause disrupted sleep and psychiatric and neurological conditions that contribute to disorders. Emphasizes a comparative and multidisciplinary approach to the topic of sleep Covers the neurobiology and physiology of sleep stages, mechanisms of waking, and dreaming Discusses in detail the proposed functions of sleep, from health and rest, to memory consolidation and synaptic plasticity Examines the current state of research in mammalian and non-mammalian species, ranging from primates to invertebrates

Endorsed by Australian Physiotherapy Association! APA is the national body for physiotherapy in Australia and is a not for profit membership organisation with 24.4K members. The APA and Elsevier work together on reviewing and endorsing physiotherapy publications that are then promoted to the membership. Pharmacology Handbook for Physiotherapists is an essential quick-reference guide to common medications, designed specifically for student and professional physiotherapists to assist in their everyday practice. Providing practical and accessible evidence-based information, the handbook will equip physiotherapists with the right knowledge to maximise the benefit of pharmacology and physiotherapy treatments. This book critically discusses the psychology of Chinese gambling from a cultural perspective. In particular, it investigates the history of gambling, the prevalence of gambling in China, and the personality of Chinese gamblers and explores how the Chinese culture has contributed to the development of gambling and gambling problems. Further, it examines specific evidence-based treatment for Chinese problem gamblers and provides a therapeutic model that is tailored to their needs and psychology. This book useful for students and academics conducting research on Chinese gamblers and the treatments that work for them.

Where is planning in twenty-first-century Australia? What are the key challenges that confront planning? What does planning scholarship reveal about the state of planning practice in meeting the needs of urban and regional Australians? The Routledge Handbook of Australian Urban and Regional Planning includes 27 chapters that answer these and many other questions that confront planners working in urban and regional areas in twenty-first-century Australia. It provides a single source for cutting edge thinking and research across a broad range of the most important topics in urban and regional planning. Divided into six parts, this handbook explores: contexts of urban and regional planning in Australia critical debates in Australian planning planning policy climate change, disaster risk and environmental management engaging and taking planning action planning education and research This handbook is a valuable resource for advanced undergraduate and postgraduate students in urban planning, built environment, urban studies and public policy as well as academics and practitioners across Australia and internationally.

This book provides plant managers, supervisors, safety professionals, and industrial hygienists with recommended procedures and guidance for safe entry into confined spaces. It reviews selected case histories of confined space accidents, including multiple fatalities, and discusses how a confined space entry program could have prevented them. It outlines the requirements of the OSHA permit-entry confined space standard and provides detailed explanations of requirements for lockout/tagout, air sampling, ventilation, emergency planning, and employee training. The book is filled with more than 100 line drawings and more than 150 photographs.
