Here is the user guide for the Isilon Self-Service Platform (SSP). Subscribe to this page to receive notifications when the guide is updated. The SSP is a Windows-based, off-cluster log analyzer that inspects and reports on cluster logs. The SSP operates on full log sets that are gathered with the `isi_gathercommand`.

Isilon Self-Service Platform User Guide (PDF)

This is a command reference for almost all of the CLI commands available in the Isilon OneFS CLI. The basic commands are outlined and in many cases multiple samples of using the commands are provided. This information was gathered as an easier to use, more condensed reference than the 1000+ page long CLI Administration guide provided by EMC, however I recommend you refer to that guide for more specific information on the commands.
