For the aficionado of farm equipment, or the scion of an old farming family nostalgic for the old days, or the grown-up boy who still loves a classic piece of old-time machinery, the vintage tractor can be a thrilling find like no other. This book tells dozens of stories of such discoveries, of the treasured old tractor parked in a shed since 1927, of the pristine model unearthed at an estate sale, of the broken-down old beauty stashed in a barn where generations of children have made their secret hideaways. These are the classic tractors that are often as hard to find as a needle in a haystack—but far more fun to discover, as all of these delightful stories make abundantly clear.

Service and maintenance procedures for walk behind mowers.

Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in Millionaire by Thirty, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

"Jerry Nelson's column comes from the true heart of the Midwest. He has the true voice, the slow twang. He knows wheat from barley. He knows hardware, he knows vegetation, he knows people."—Garrison Keillor In the tradition of Mark Twain and Jean Shepherd, Dave Barry and Garrison Keillor, Jerry Nelson is a humorist whose beat is the American heartland, a small-town world of pickup trucks and Sunday night pancake dinners, dropping in on neighbors and complaining about the county agent. His depictions of daily life, from the point of view of an ex-dairy farmer and taciturn husband with a twinkle in his eye, are read by 250,000 people a week—and occasionally woven into Prairie Home Companion scripts. These are stories of courtship; childbirth—he offers the delivery room doctor the use of his calf puller; family; neighbors; chores; and the duties of a father—why is it that a man who spends his days in cow manure can't change a baby's diaper? Knee-slappingly funny one moment, poignant the next, it's a very special look at a distinctly American way of life.
