experiential learning process. One is to learn the specifics of a particular subject matter, in this case, educational leadership and organizational management. The other is to learn about one ' s own strengths and weaknesses as a learner. This book is focused on the analysis of prevalent theories and concepts and their application to the development of leadership and management skills, and the knowledge and attitudes required to solve real world problems in the workplace. For decades, students have focused their studies of educational leadership and organizational management theories in classroom settings without actual opportunities to apply these theories in the workplace. A profound and significant lesson learned in history is that we must follow the principle of integrating theory with practice (unity of theory with practice). Then, we can follow the policy of walking on two legs, an analogy made by the late
