Much of our daily lives intertwine with artificial intelligence. From watching movies recommended by our entertainment streaming service, to interacting with customer service chatbots, to autotagging photos of friends in our social media apps, AI plays an invisible part in enriching our lives. While AI may be seen as a panacea for enterprise advancement and consumer convenience, it is still an emerging technology, and its explosive growth needs to be approached with proper care and preparation. How do we tackle the challenges it presents, and how do we make sure that it does precisely what it is supposed to do? In Keeping Your AI Under Control, author Anand Tamboli explores the inherent risk factors of the widespread implementation of artificial intelligence. The author delves into several real-life case studies of AI gone wrong, including Microsoft ' s 2016 chatbot disaster, Uber ' s autonomous vehicle fatally wounding a pedestrian, and an entire smart home in Germany dangerously malfunctioning because of one bad lightbulb. He expertly addresses the need to challenge our current assumptions about the infallibility of technology. The importance of data governance, rigorous testing before roll-out, a chain of human accountability, ethics, and much more are all detailed in Keeping Your AI Under Control. Artificial intelligence will not solve all of our problems for good, but it can (and will) present us with new solutions. These solutions can only be achieved with proper planning, continued maintenance, and above all, a foundation of attuned human supervision. What You Will Learn Understand various types of risks involved in developing and using AI solutionsIdentify, evaluate, and quantify risks pragmatically Utilize AI insurance to support residual risk management Who This Book Is For Progressive businesses that are on a journey to use AI (buyers/customers), technical and financial leaders in AI solution companies (solution vendors), AI system integrators (intermediaries), project and technology leads of AI deployment projects, technology purchase decision makers, CXOs and legal officers (solution users).

National architectural magazine now in its fifteenth year, covering period-inspired design 1700–1950. Commissioned photographs show real homes, inspired by the past but livable. Historical and interpretive rooms are included. new construction, additions, and new kitchens and baths take their place along with restoration work. A feature on furniture appears in every issue. Product coverage is extensive. Experts offer advice for homeowners and designers on finishing, decorating, and furnishing period homes of every era. A garden feature, essays, archival material, events and exhibitions, and book reviews round out the editorial. Many readers claim the beautiful advertising—all of it design-related, no " lifestyle " ads—is as important to them as the articles.

Praise for THE NEW EMERGING-MARKET MULTINATIONALS One of Strategy and Business ' s Best Business Books of the Year "This book is a real eye-opener. It will forever change your assumptions about international economic competition and who the winners will be." —PHILIP KOTLER Kellogg School of Management and author of Winning at Innovation "An insightful read—essential for those wishing to understand the evolution and growth of emerging-economy EMNCs and how they will reshape global market structures." —ANAND MAHINDRA, Vice Chairman and Managing Director, Mahindra Group, India "As this timely book so insightfully points out, the rise of emerging-market multinationals is shifting the global competitive landscape and forcing us to think hard about new growth, strategy, and talent equations. A must-read for business leaders responsible for navigating today's global environment. —MUHTAR KENT, Chairman and Chief Executive Officer, The Coca-Cola Company "This book offers an array of fascinating examples and an interesting framework for stimulating thinking about EMNCs' strategic options." —PANKAJ GHEMAWAT, IESE Business School, and author of World 3.0 "A must-read. The book is well researched and provides compelling case illustrations. I highly recommend it." —W. CHAN KIM, Professor, INSEAD, Codirector, INSEAD Blue Ocean Strategy Institute, and bestselling author of Blue Ocean Strategy "This is the future of global competition. You need to understand it if you aspire to be a player or if global markets are now a part of your strategy." —DAVID A. AAKER, Vice Chairman, Prophet, and bestselling author of Brand Relevance "This book gives a clear idea of the success formula of emerging-market multinationals by showing practical insights based on a deep understanding of EMNCs. This will help readers from any type of company structure their own growth strategies." —WONHONG CHO, Executive Vice President and Chief Marketing Officer, Hyundai Motor Company "An excellent collection of ideas and examples that should inspire companies in emerging markets looking to build brands and markets anywhere." —BUSINESSWORLD About the Book: LG, HTC, Tata, Haier, Lenovo, Arceik, Natura. From smartphones and computers to blue jeans and beer, companies from China, India, Taiwan, Mexico, Turkey, and other emerging markets are now winning leading market shares with their own-branded, high-quality products—rather than with poorly produced products sold under others' brand names. These emerging-market multinational companies (EMNCs) are giving the incumbent market leaders of North America, Western Europe, and Japan a run for their money in the areas of innovation, branding, and marketing. How have these small, under-resourced businesses come so far so quickly? And what can you learn from their strategies and tactics? Renowned experts in global branding and marketing, the authors of The New Emerging-Market Multinationals conducted an in-depth study of 39 EMNCs to reveal the innovative compete-from-below strategies and tactics fueling these companies' meteoric rise. The authors identify four strategies driving this growth: COST LEADERS leverage existing low-cost structures and large-scale volumes to extend their reach into developed markets. KNOWLEDGE LEVERAGERS tap their existing resources and knowledge of home consumers and the market to build branded businesses in other emerging markets. NICHE CUSTOMIZERS combine their cost advantages in manufacturing with newly developed low-cost R&D capabilities to develop customized niche-segment branded offerings in other emerging markets. GLOBAL BRAND BUILDERS use their low-cost manufacturing and R&D capabilities to build branded businesses in developed markets—but limit their focus to specific products and segments through a process of focused innovation. Whether you run an EMNC or a developedmarket company, deep knowledge of the strategies outlined here is an absolute necessity for competing effectively now and in the future. Don't get caught off guard by the "new kids on the block"—because today's EMNCs are determined to be tomorrow's market leaders.
