Great Supplement to support students in Calculus & Vectors.

CK-12 Foundation's Single Variable Calculus FlexBook introduces high school students to the topics covered in the Calculus AB course. Topics include: Limits, Derivatives, and Integration.

The second edition of Interior Graphic Standards is completely revised with updated and expanded coverage of: Interior material energy use and environmental impact; ADA Accessibility Guidelines; Residential design and construction; Basic building construction types and their impact on interiors; Historic preservation and adaptive reuse of interiors; Life cycle costing and estimating for interior materials; Behavioral aspects of designing with color; Current issues in office design; Commercial and residential interior renovation for smaller projects; Current information on computer technology and interior design practice.

Chart Patterns booklet is designed to be your quick source for identifying chart patterns to help you trade more confidently. This book introduces & explains 60+ patterns that you are bound to see in Stocks, Mutual Funds, ETFs, Forex, and Options Trading. With this book, you will not need to flip through hundreds of pages to identify patterns. This book will improve the way you trade. Unlike other Technical Analysis books, this Chart pattern book will help you master Charting & Technical Analysis by making it simple enough to understand & use on a day to day basis.

This is a core text for courses in social problems. Using a strong Canadian perspective, it examines the social dynamics and consequences of social problems (such as unemployment, poverty, global inequality) through the lens of the main sociological paradigms. It takes a broad approach and examines the social construction of social problems and the impact of social problems on individual and societal health. Possible solutions for individuals and society at large are examined.
