Volume 4 MRCOG – Comprehensive preparation Manual Volume 4, is a Perfect revision complementing the preparation with Volumes 1,2 and 3 for MRCOG part 2 examination of the Royal College of Obstetricians and Gynaecologists and help other doctors who wants to update their knowledge with British Practice of Obstetric and Gynaecology (O&G). Care was taken in preparation of this volume in order to cover wider aspects of MRCOG examination requirement and to facilitate candidates to handle questions in various subspecialties of O&G and daily practice in United Kingdome. Special consideration was given to overseas doctors taken British examination and the volume has covered subjects which have legal and social implications. Most question are based on RCOG guidelines, NICE guidance and GMC publications in addition to guideline of specialised societies such as British Fertility, ESHRE, British Gynaecology Endoscopy societies . I hope you will find this volume one of the important tools to lead for more knowledge which you require for the daily O&G practice and MRCOG examination.

This title includes Foreword by David Taylor, Professor and Vice Dean of Leicester Medical School. Preparing for the Part 2 MRCOG examination remains a daunting and complex task, particularly as learning and revision often need to fit around clinical commitments. Much has been written about how to prepare for and pass exams, yet it remains surprising how often well-read candidates provide unsatisfactory answers in areas which they know well. Clearly, a sound understanding of the topic area is essential, but deeper knowledge also increases uncertainty, and the vast developments in the field mean that proficiency in all areas is next to impossible. Thus a critical point for postgraduate candidates, who more often than not will prepare for the examination in isolation, is to develop a real understanding of what the examination is meant to assess...This revision aid in obstetrics and gynaecology is based on the Extended Matching Question format (EMQ). It contains forty-two questions of varying degrees of difficulty, along with detailed answers. "MRCOG Part 2 Essential EMQs" is an indispensable study and revision aid for postgraduate medical students preparing for Part 2 of the Membership of the Royal College of Gynaecologists (MRCOG) examination or equivalent. "The number of published revision aids including this question format in postgraduate Obstetrics and Gynaecology remains limited. With this book we wanted to produce a comprehensive selection of EMQ, covering broad areas relevant to the speciality, which would be useful those preparing for postgraduate examinations at Part 2 MRCOG level or equivalent." - Marwan Habiba, Andrea Akkad, Justin Konje.

Get Through MRCOG Part 1, Second Edition, provides a selection of questions covering the basic and applied sciences relevant to the clinical practice of obstetrics and gynaecology and mapped to the RCOG Knowledge Areas in the MCQ style. With appropriate explanations of the answers and references to the relevant guidelines, this is a definitive resource for those taking the MRCOG Part 1 examination.

SBA Questions for the Part 2 MRCOG is a valuable preparation resource aimed at those specialising in obstetrics and gynaecology who are planning to take the Part 2 MRCOG examination. It contains two hundred practice single best answer questions written by MRCOG question writers, with accompanying explanations and references. It also contains an introduction to the new format of the examination and the rationale for the changes. The first section consists of two hundred single best answers allowing the reader to test their knowledge. The second section lists the correct response accompanied by an explanation and suggestions for further reading. SBA Questions for the Part 2 MRCOG is the only official preparation book produced by the RCOG and is therefore essential reading for candidates sitting this examination in its new format.

Get Through MRCOG Part 2: SBAs provides 3 exams' worth of questions mapped to the RCOG syllabus in the newly introduced SBA style. With detailed explanations and relevant references to guidelines, this is the definitive resource for those taking the MRCOG Part 2 examination.

Obstetrics and Gynaecology: An Evidence-Based Text for MRCOG is an indispensable textbook for trainees preparing for the MRCOG examination and beyond. Based on the 2009 RCOG curriculum MRCOG standards and the relevant theoretical and practical skills required clearly highlighted at the start of each chapter Focused on the evidence-base for treatments with evidence scoring, published guidelines and key references Accessible, digestible chapters with summaries, key points, tables and illustrative material This second edition of this innovative textbook provides all the information required by the obstetrics and gynaecology trainee and specialist during training and in preparation for the MRCOG examination. Sub-sections within Obstetrics, Gynaecology and a general section are divided in line with the RCOG trainee logbook. The text is consistently structured throughout to ensure ease of reference with standardized headings including definitions, incidence, aetiology, incidence, investigations and management. Recommendations for medical, surgical, psychological and complementary treatment and diagnostic tests are all subject to appraisal of the supporting evidence which is rated from A-E according to RCOG guidelines. The Section Editors and Editors are renowned in the field and have close affiliations with the RCOG.

This comprehensive question-and-answer resource covers all aspects of the curriculum for the Part 2 MRCOG examination. Candidates are given the opportunity to practise the Single Best Answer question style, to cover the content they will encounter in the examination and to assess their knowledge. As consultants actively engaged in the writing of the Part 2 Single Best Answers, the authors and editor have provided directly applicable questions. Candidates to review the syllabus in an organised, systematic manner, with comprehensive explanations for each answer. This title also includes new sections on ethics, training, audit and clinical governance. Mock exams are also available online to familiarise candidates with the real-life examination. The detailed answers, evidence and comprehensive list of references offer an excellent training and reading source for all candidates preparing for the Part 2 MRCOG examination.

This book provides a comprehensive overview of clinical intrapartum care, with an emphasis on a pragmatic approach which promotes the necessary vigilant care while also supporting the wishes of the pregnant woman who wants minimal interference. This second edition has been thoroughly updated to reflect current practice and developments in the field since publication of the first edition, with six new chapters added on topics that are of increasing importance: improving intrapartum care, lower genital tract trauma, emergency obstetric hysterectomy, acute uterine inversion, disseminated intravascular coagulation and acute tocolysis. The book is primarily designed to provide a comprehensive summary for candidates preparing for the Part 2 MRCOG examination, and as such covers the RCOG curriculum for intrapartum care. It is also a valuable guide for all healthcare professionals working in the field, including trainees, consultants and midwives.

The examination for Membership of the Royal College of Obstetricians and Gynaecologists (MRCOG) remains one of the most internationally recognised postgraduate examinations in the speciality. Over the years, the examination has evolved in keeping with changes in medical education; the Part 3 examination now consists of 14 tasks, each covering one of the 14 core modules in the curriculum and assessing specific skills which may include all or some of Information Gathering, Communication with Patients and Families, Communication with Colleagues, Patient Safety, and Applied Clinical Knowledge. This invaluable resource consists of analyses of different aspects of what is being tested, with general advice on how to prepare for the examination and discussion of the reasons why trainees fail the examination. There follow four sample 'papers' of tasks; in each of them, attempts have been made to cover all 14 modules in the core curriculum. There is also an additional paper with random tasks to help with preparation.

Reflecting recent changes to the exam, MRCOG Part 2: 500 SBAs and EMQs, Second Edition has been completely updated to include questions and answers in the new SBA format. With over 50% new content, MRCOG Part 2: 500 SBAs and EMQs offers the most up-to-date and comprehensive set of practice questions for trainees preparing for the MRCOG Part 2 exam. Chapters are mapped to the syllabus to deliver structured revision in all the key topics tested in the exam. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision text to maximise chances of exam success. Key Points 500 questions, comprising 250 SBAs and 250 EMQs, reflecting the breadth of topics encountered in the actual exam Questions structured around MRCOG syllabus core modules, ensuring complete coverage for the exam Answers feature concise descriptions to consolidate knowledge and understanding Extensive evidence-based referencing to relate theory to clinical practice Visually-enhanced answers to improve understanding of key concepts
