Remote Observatories for Amateur Astronomers: Using High ...

The iTelescope remote observatory, Constellations such as Carina, the Keel, only reveal their treasures to Southern Hemisphere eyes, and never rise above the horizon at my location in Shropshire. There's an added bonus too, in that you can schedule your imaging runs to take place when you're unable to do the observation live.

How remote astronomy changed my life - skyatnightmagazine

Sierra Remote Observatories (SRO) provides hosting services for remotely operated telescopes at an exceptional site in the Sierra Nevada mountains. SRO has been in operation since 2007, currently hosting more than 50 telescope systems and growing. We are honored to host a roster of clients, which include astronomers from universities and science institutes, space industry professionals, and astrophotographers.
