This is a comprehensive guide to the main poultry breeds around the world, with fascinating information on their appearance, size, traits and more. Popular foundation breeds such as Lackenvelder are covered in detail, as well as true bantams such as the Dutch Bantam and the miniature Cochin Bantam.

Read Book The Concise Encyclopedia Of Poultry Breeds An Illustrated Directory Of Over 100 Ens Ducks Geese And Turkeys

From added to wind egg and crossed beak to zygote, the terminology of everything chicken is demystified in The Chicken Encyclopedia. Complete with breed descriptions, common medical concerns, and plenty of chicken trivia, this illustrated A-to-Z reference guide is both informative and entertaining. Covering tail types, breeding, molting, communication, and much more, Gail Damerow provides answers to all of your chicken questions and quandaries. Even seasoned chicken farmers are sure to discover new information about the multifaceted world of these fascinating birds.

Gail Damerow shows you how to incubate, hatch, and brood baby chickens, ducklings, goslings, turkey poults, and guinea keets. With advice on everything from selecting a breed and choosing the best incubator to feeding and caring for newborn chicks in a brooder, this comprehensive guide also covers issues like embryo development, panting chicks, and a variety of common birth defects. Whether you want to hatch three eggs or one hundred, you'll find all the information you need to make your poultry-raising operation a success.

Covering virtually every rare breed that is likely to be encountered by poultry fanciers, is a detailed reference guide to the rarest, most obscure, and, in a few cases, even extinct breeds of chickens and bantams that are often not mentioned in poultry books. One of the main reasons why fanciers keep particular breeds is that they wish to have a small piece of history running around their garden. Accordingly, this book has a strong historical content. David Scrivener is a poultry judge, the chairman of the Rare Poultry Society, and the author of Exhibition Poultry Keeping.

More than 128 birds strut their stuff across the pages of this definitive primer for intrepid poultry farmers and feather fanciers alike. From the Manx Rumpy to the Redcap and the Ancona duck to his Aylesbury cousin, each breed is profiled with a brief history, detailed descriptions of identifying characteristics, and colorful photography. Comprehensive and fun, Storey's Illustrated Guide to Poultry Breeds celebrates the personalities and charming good looks of North America's quirkiest barnyard birds and waterfowl.

Expert Glenn Drowns offers all the information and guidance you need to successfully exhibit your poultry at fairs and expositions. Learn how to select the best breeds and birds for exhibition and how to raise them with the proper diet, health care, and handling so that they are at their best by showtime. Drowns includes a useful countdown to help you plan tasks, from pest prevention to cage training, as well as dozens of tips on what judges are looking for.

A guide to keeping chickens offers advice on housing, care, feeding, breeding, and showing and includes profiles of more than seventy of the most popular breeds, detailing origins, weight ranges, egg characteristics, physical appearance, and behavior.

The aim of this Special Issue is to publish high quality papers concerning poultry nutrition and the interrelations between nutrition, metabolism, microbiota and the

health of poultry. Therefore, I invite submissions of recent findings, as original research or reviews, on poultry nutrition, including, but not limited to, the following areas: the effect of feeding on poultry meat and egg quality; nutrient requirements of poultry; the use of functional feed additives to improve gut health and immune status; microbiota; nutraceuticals; soybean meal replacers as alternative sources of protein for poultry; the effects of feeding poultry on environmental impacts; the use of feed/food by-products in poultry diet; and feed technology.

Overview: There are more poultry breeds than most individuals realize and for anyone considering or preparing to get involved in the raising and breeding of poultry, it is vital to understand as much as possible about as many of them as possible. With more than 500 breeds recognized by the American Poultry Association, there are different feed necessities, housing requirements, incubation times, egg information, and costs of raising just about any of these various breeds. This book provides the details that every potential poultry breed needs to start creating detailed plans for purchasing, raising, and breeding their new small farm animals. You will learn about each of the more than 500 different breeds of poultry, from chickens to turkeys and ducks. Each breed will be laid out with complete details about everything you need to know to raise them effectively. From how to breed that particular breed to how to raise the chicks, you will be able to breed and gather eggs from chickens and breed for meat the ducks and turkeys you select. You will learn exactly which breeds are best for egg production by volume and quality and which ones are best for meat by taste and quality. You will learn the dietary needs of each breed and what they require from you to stay alive in all four seasons as well. Poultry and small farming experts were interviewed for this book to provide detailed insight into how poultry is selected and raised and throughout the book you will find small bits of information about how each breed is different from the rest, what suggestions are offered for raising that particular breed and which breeds to completely steer clear of. You will learn which poultry breeds have been used for hundreds of years on small farms everywhere and which ones are rarely used and for what reasons. Whether you are starting a farm and need a half dozen good poultry breeds for your coups or are just adding a small area on your property to raise some chickens, this guide will provide everything you need to understand and select the proper breed for your needs.
