The Jesus Driven Life looks at the Bible through the lens of Rene Girard's mimetic theory to develop a way of understanding the authority of scripture within Christianity apart from a theory of the inspiration of the Bible.

Having a careful ear and an open heart is vital to understanding the big ideas of the Universe. Two friends, Distefano and Machuga, put this on display here, vulnerably exploring some of humanity's most robust topics: what it means to be human, what it means to be saved, what it means to be lost, and what the meaning of life is. And while the authors agree on many things, including the ultimate fate of humanity, they do not necessarily agree on all the details of how we get there. But instead of "agreeing to disagree," they model for their readers what conversations of this variety should look like--agreement with a little pushback, and even some poking fun at one another from time to time. So, as Distefano advises, "take your time and enjoy these discussions." They are transparent and hopeful, refreshingly liberating, and are imbued with complete awe toward the goodness of the Creator and her creation.

What if the modern American church has its Christian history wrong? According to ex-evangelical Michael Camp, most American believers fail Christian History 101. Drawing on his own historical research and missionary experience, he discovers that most popular Christian views of the Bible, church, sin, salvation, judgment, the kingdom of God, the "end times," and the afterlife--pretty much all religious sacred cows--don't align with the beliefs of the original Jesus movement. Some of them not even close. Camp's Craft Brewed Jesus paves a fascinating journey of a group of disillusioned evangelicals and Catholics. When they decide to meet regularly over craft beers to study the historic foundations of their faith, their findings both rock their world and resolve ancient mysteries. They examine well-documented narratives of the early Jesus saga, Eastern streams of a lost Christianity, and the roots of our modern religious assumptions, all while striving to steer clear of either a conservative or liberal bias. What they uncover is a vital, refreshing spiritual paradigm no longer at odds with reality. Grab your brew of choice and trace this transformational journey based on a true story that will encourage you in your walk of life and faith.

DEIFIED VISION: TOWARDS AN ANAGOGICAL CATHOLICISM is an attempt at activating an "anagogical imagination." It requires of us that we pray for a share in God's own contemplation of the world; that we allow our imaginations to get "lifted up" into His own; that we desire to receive, through the illumination of His Holy Spirit, a participation in His own love and desire for all He has created. One author has called this process 'acquiring an "epistemic participation" in the Mind of Christ.'

Knowing God? is an indictment of Protestant American Christianity in its failure to follow Jesus of Nazareth. Consumer Christianity is laid bare before the gospel and found wanting. After exposing the superstition of American Christianity, Hardin examines the gospel narrative and demonstrates that a truly Jesus-oriented approach must be non-sacrificial in all its ways. Like Jeremiah, Kierkegaard, or the early Barth, Knowing God? rings with a clarion call for followers of Jesus to ask what the Christian life looks like and is all about.

The Destruction of Jerusalem: An Absolute and Irresistible Proof of the Divine Origin of Christianity; And Narrative of the Calamities which befell the Jews, So far as they tend to verify the Prophetic Word of God; And our Lord's Predictions Relative to that event. With A brief description of the City and Temple

Why did God have to murder his only son to pay our debts? What kind of vengeful, violent God can only be satisfied by vicarious blood atonement? In Executing God, theologian Sharon Baker presents a biblically based and theologically sound critique of popular theories of the atonement. Concerned about the number of acts of violence performed in the name of God, Baker challenges cultural assumptions about the death of Jesus and its meaning to Christians. She ultimately offers a constructive alternate view of atonement based on God's forgiveness that opens up salvation to a wider group of people.

To survey harsh criticisms against Brian Douglas McLaren (1956–), readers gain the inaccurate impression that he is a heretical relativist who denies objective truth and logic. While McLaren's inflammatory and provocative writing style is partly to blame, this study also suspects that his critics base much of their analyses on only small portions of his overall corpus. The result becomes a caricature of McLaren's actual philosophy of religion. What is argued in this book is that McLaren's philosophy of religion suggests a faith-based intersubjective relationship with the divine ought to result in an existential appropriation of Christ's religio-ethical teachings. When subjectively internalized, this appropriation will lead to the assimilation of Jesus' kingdom priorities, thereby transforming the believer's identity into one that actualizes Jesus' kingdom ideals. The hope of this book is that by tracing McLaren's philosophy of Christian religion, future researchers will not only be able to comprehend (and perhaps empathize with) McLaren's line of reasoning, but they will also possess a more nuanced discernment of where they agree and disagree with his overall rationale.
