Space Merchants, first published in 1952 is a science fiction gem. Telling the tale of a capitalistic-anarchic society from the perspective of an advertising executive, Pohl describes a world where ancient maxims have been turned upside down - such as "Power enables, and absolute power enables absolutely."

writers Frederik Pohl and Cyril M. Kornbluth. Originally published in Galaxy Science Fiction magazine as a serial entitled Gravy Planet, the novel was first published as a single volume in 1953, and has sold heavily since. It deals satirically with a hyper-developed consumerism, seen through the eyes of an advertising executive. In 1984, Pohl published a sequel, The Merchants' War. In 2012, it was included in the Library of America

The Space Merchants is a bitterly satirical world undermined by a lightweight and dated plot, and suffering from an apparent solution that we now know is both probably physically impossible (at least as near to the present as this book is set) and which wouldn't solve the underlying problem anyway. It's very obvious that it was written in the 1950s; the Cold-War-style skullduggery and dated characterization are somewhat off-putting and bring the book down a few notches when read today, and ...

Review: The Space Merchants by Frederik Pohl & C.M. Kornbluth

The Space Merchants has an interesting premise: what happens to a high-profile citizen working in advertising in a hyper-consumerist world when he lands the big job that a rival wants? The story enters into an underground where the protagonist discovers things about his life he didn't know and about the world.
