An investigative approach to Cambridge IGCSE Geography, written in partnership with the Geographical Association. Encourage students to make links between case studies and their own local contexts as well as exploring the core themes and skills of the 0460 syllabus in the context of global case studies and processes. Prepare for exam success with full coverage of the core themes of Paper 1 (Population and Settlement, The Natural Environment, Economic Development and the Use of Resources) as well as the geographical and fieldwork skills elements of Papers 2, 3 and 4. Help students focus on achieving the best grades with excellent exam support for each Paper, with exam-style questions, answers at different levels and accompanying comments. Be confident in the content and approach - this resource is written by highly experienced Geography teachers, consulted edited by a CIE Principal Examiner, and produced in partnership with the UK Geographical Association - the home of best practice in Geography teaching.

This book is the first major study in several decades to consider Uganda as a nation, from its precolonial roots to the present day. Here, Richard J. Reid examines the political, economic, and social history of Uganda, providing a unique and wide-ranging examination of its turbulent and dynamic past for all those studying Uganda's place in African history and African politics. Reid identifies and examines key points of rupture and transition in Uganda's history, emphasising dramatic political and social change in the precolonial era, especially during the nineteenth century, and he also examines the continuing repercussions of these developments in the colonial and postcolonial periods. By considering the ways in which historical culture and consciousness has been ever present - in political discourse, art and literature, and social relationships - Reid defines the true extent of Uganda's viable national history.

After comparing modern Western navigation with the method practiced in Micronesia, Hutchins explores the computational and cognitive properties of systems that involve multiple individuals. He then turns to an analysis of learning or change in the organization of cognitive systems at several scales.

Teachers are at the heart of good education, and good teacher policies are essential to ensure adequate supply, deployment and management of teachers. Enrollment in primary education has grown rapidly in Sub-Saharan Africa. Yet teacher policy in the region has often evolved without clear planning; in the absence of an overall strategy, countries have experienced serious problems with teacher supply and deployment, as well as with the quality of teaching. Based on case studies of education systems and practices in eight English-speaking African countries, 'Teachers in Anglophone Africa: Issues in Teacher Supply, Training, and Management' closely examines issues of teacher supply, deployment, management and finance. The book suggests that these issues are closely interrelated. Low numbers of qualified teaching graduates may result in teacher shortages; these shortages may make it difficult to deploy teachers effectively. Problems with teacher deployment may result in inefficient utilization of the teachers available, and those teachers' effectiveness may be further reduced by weak teacher management and support systems. The book identifies policies and practices that are working on the ground, noting their potential pitfalls and pointing out that policies designed to address one problem may make another problem worse. 'Teachers in Anglophone Africa: Issues in Teacher Supply, Training, and Management' offers a useful synthesis of the issues and draws together a series of promising practices, which can serve as positive suggestions for countries seeking to improve their teacher policies. The book should be of great assistance to education ministries and their development partners throughout the region as they address the challenges of the next phases of expansion in education.

Containing over 5000 essential references to people, organisations, words and concepts in the field of adult education, this thorough and comprehensive volume represents the standard reference for anyone seeking information on the education of adults.
