Unarmed combat, martial arts, or hand-to-hand combat was a type of fighting employed in close quarters and in which no weapons were used. Most species practiced this kind of combat, and a number of sentient species and cultures also developed it into different martial arts proper. A person who practiced martial arts was known as a martial artist, and an expert was called a martial arts master.

Unarmed Combat (SAS and Elite Forces Guide): Hand-to-Hand ...

Hand-to-hand combat is a physical confrontation between two or more persons at very short range that does not involve the use of ranged weapons. While the phrase "hand-to-hand" appears to refer to unarmed combat, the term is generic and may include use of melee weapons such as knives, sticks, batons, spears, or improvised weapons such as entrenching tools. While the term hand-to-hand combat originally referred principally to engagements by combatants on the battlefield, it can also refer to any

The author of this concise guide to unarmed combat and self-defence is a legend. W. E. Fairbairn (1885-1960) spent over thirty years in the tough environment of the Riot Squads of China's Shanghai Municipal Police. In order to lower levels of Police mortality at the hands of Chinese Tongts, he studied ancient Chinese and Japanese martial arts, including Ju-jitsu, and was the first foreigner to be awarded a black belt in the discipline. He developed his own system which he called 'Defendu'. At the outbreak of the Second World War, he was recruited by Britain's Special Operations Executive as an Instructor in unarmed combat and expounded the deadly mysteries of attack and defence to scores of trainee agents about to be dropped into occupied Europe. His methods were approved and officially adopted throughout the British army. Fairbairn also developed weapons and defence aids such as bullet proof vests. He is best known as the co-inventor of the famous Sykes-Fairbairn knife. In this book he expounds his distilled experience of unarmed combat. Fully illustrated, it shows how to deliver deadly blows with hand, fist, knee and boot; wrist, bear- and strangle holds (and how to break them); how to throw an enemy, and how to break their backs; how to disarm a pistol-wielding attacker; and securing a prisoner. The book also contains a chapter on the use of the rifle in close combat by Captain P. N. Walbridge.

Learn the most effective way to neutralize an opponent using ancient samurai techniques applied to modern combat with this illustrated martial arts guide. Modern Hand to Hand Combat: Ancient Samurai Techniques on the Battlefield and in the Street recognizes the lawless nature of today's battlefield. Hakim Isler, a veteran of the Iraq War, knows from his own experiences that in an urban combat setting, the players, the equipment, and the stakes are very different from those found in an MMA octagon, the boxing ring, or the martial arts dojo. Based primarily on samurai techniques over a millennium old, Isler's system—Battlefield Proximity Combat—is an effective answer to the unique needs of the modern warfighter and military martial artist. This martial arts training book gives step-by-step self-defense instructions on how to effectively and realistically respond to life and death hand-to-hand combat situations through movements and principles that are as valid today as they were 1000 years ago. With almost three hundred illustrations and a detailed DVD, the philosophy and instructions in Modern Hand to Hand Combat can mean the difference between life and death on the battlefield or in a street fight.
