The management of our manuals prior to purchasing Manula was time-consuming with multiple steps and tedious formatting to make even minor changes. With over 1000 pages to manage in a single manual and multiple versions to maintain, it was time to find a product that I could quickly learn and utilize.

Online manual software for creating online user manuals ...

A user manual is a formal writing piece with a specific structure, and should be written by someone who is intimately familiar with the product such as a technical writer or the product designer. Writing an effective user manual requires knowing who is going to be using the product, then writing it with these users in mind.

How to Create a User Manual (with Pictures) - wikiHow

A user manual consists of textual visual information (illustrations, screenshots, tables etc.) to assist the user in completing specific tasks. The user plays the central role when drawing up a user manual. A well-drafted user manual only provides that information that is relevant for the intended user of the product.

User Manual Template and Guide to Create Your Own Manual ...

The user manual should be largely task-oriented, rather than heavily descriptive. Because the manual is written to help users understand how to execute specific tasks, the writer needs to have an understanding of those tasks as well, and as a result, going through each discrete step of each feature is absolutely essential.
